

Vision and Environmental policy

Vision:

To be recognized as one of the leading enterprises in our industry worldwide on Sustainability and Environmental Stewardship.

Environmental Policy:

Sustainable Development is a top Group priority at all times and in all circumstances. Our environmental commitment aims at doing less harm by mitigating negative operational impacts and doing more good by actively contributing to worthwhile local and international initiatives.

We aim at:

1. Complying as a minimum with local, national and international regulations and legislation.
2. Continuously improving of our environmental performance, reviewing and monitoring, at top management level, the effectiveness of our programs and actions.
3. Assessing the environmental impact at each facility, and taking the necessary measures to protect the biodiversity and natural surroundings.
4. Developing, implementing and monitoring programs to use energy and natural resources more efficiently and to reduce our emissions
5. Reducing the waste produced by operations, reusing our own byproducts and these of other industries and promoting recycling
6. Promoting environmentally responsible attitudes and behaviors in all our employees and encourage suppliers, customers and other business associates to adopt similar practices.
7. Contributing to the well-being of local communities, communicating openly and sincerely with them and pursuing good-neighbor relations.
8. Supporting and participating in local and international organizations and initiatives designed to protect the environment by sharing knowledge, best practices and with joint actions.
